UNLOCK THE KEYS TO SKATING

***"I created this program for the
skate enthusiast who desires to
become a master of the art of
skating!"***

WELCOME TO SK8 LIKE A PRO!

This exclusive program is broke into three modules with an additional Stretch Module. The three modules must be mastered in order with required elements fulfilled before moving on. Many experienced skaters without formal training will find skating on an edge and skate terminology new concepts so therefore must start at the fundamentals.

YOU WILL FIND A QUICK OVERVIEW OF WHAT YOU WILL LEARN IN EACH MODULE BROKEN DOWN INTO THREE CATEGORIES: SKATING AND EDGE MASTERY, SPINS AND JUMPS, AND ROLLERDANCE.

SK8 LIKE A PRO

I began skating at 3 years old and competing at 5. After spending my entire youth as a champion artistic skater I skated as a professional touring the world as a member of George Clinton's Parliament Funkadelic for over a decade. Since then I returned to my skating roots and partnered with World Champion Trey Knight as well as starting my own group of professional rollerskaters, the Royal Rollers for TV and live events, and began teaching skating online thru social media.

This program incorporates decades of technical and professional experience that is enhanced with my own twists from being a circus artist, contortionist, ice skater, rollerblader, dancer, and also kundalini yoga instructor.

When I entered worldclass, I became a professional entertainer with my skates. As a touring performer, I also had decades of experience street skating as a means of transportation. Then I had an "aha!" moment. Sk8 like a Pro, thats what I know and that's what I want to teach"

A WORD ABOUT ADVANCED

At this point some skaters will want to continue into advanced to deepen their edge control and skate elements such as cross pulls and 3 turns and not be as interested in learning advanced acrobatic tricks and jumps. If this is you, there is still plenty to learn, and you know your limits!

For those with previous background in dance, gymnastics, or others that want to learn acrobatic tricks, please make sure you have mastered all the required elements before throwing yourself into a trick. Everything must be done progressively. Even if your body is trained to do acrobatics your edge and toe stop control must be as well.
